

GLENVIEW COMMUNITY DEVELOPMENT PARTNERS, INC.

Glenview Community Development Partners, Inc. has played an excellent role in educating many groups from within the Glenview area; as well as, other neighborhoods. Our mission is to educate others about the past, present, and future preservation of communities which includes:

- National register listing
- Down zoning
- Landmarks designation
- Strategic planning and business plan

Our main catalyst we use is our Community Chronicle, "educating the community about the past potential, progress and preservation of the neighborhood." Each issue emphasized various projects to promote the interests of the national register project, and to share information with the whole Memphis community on neighborhood matters.

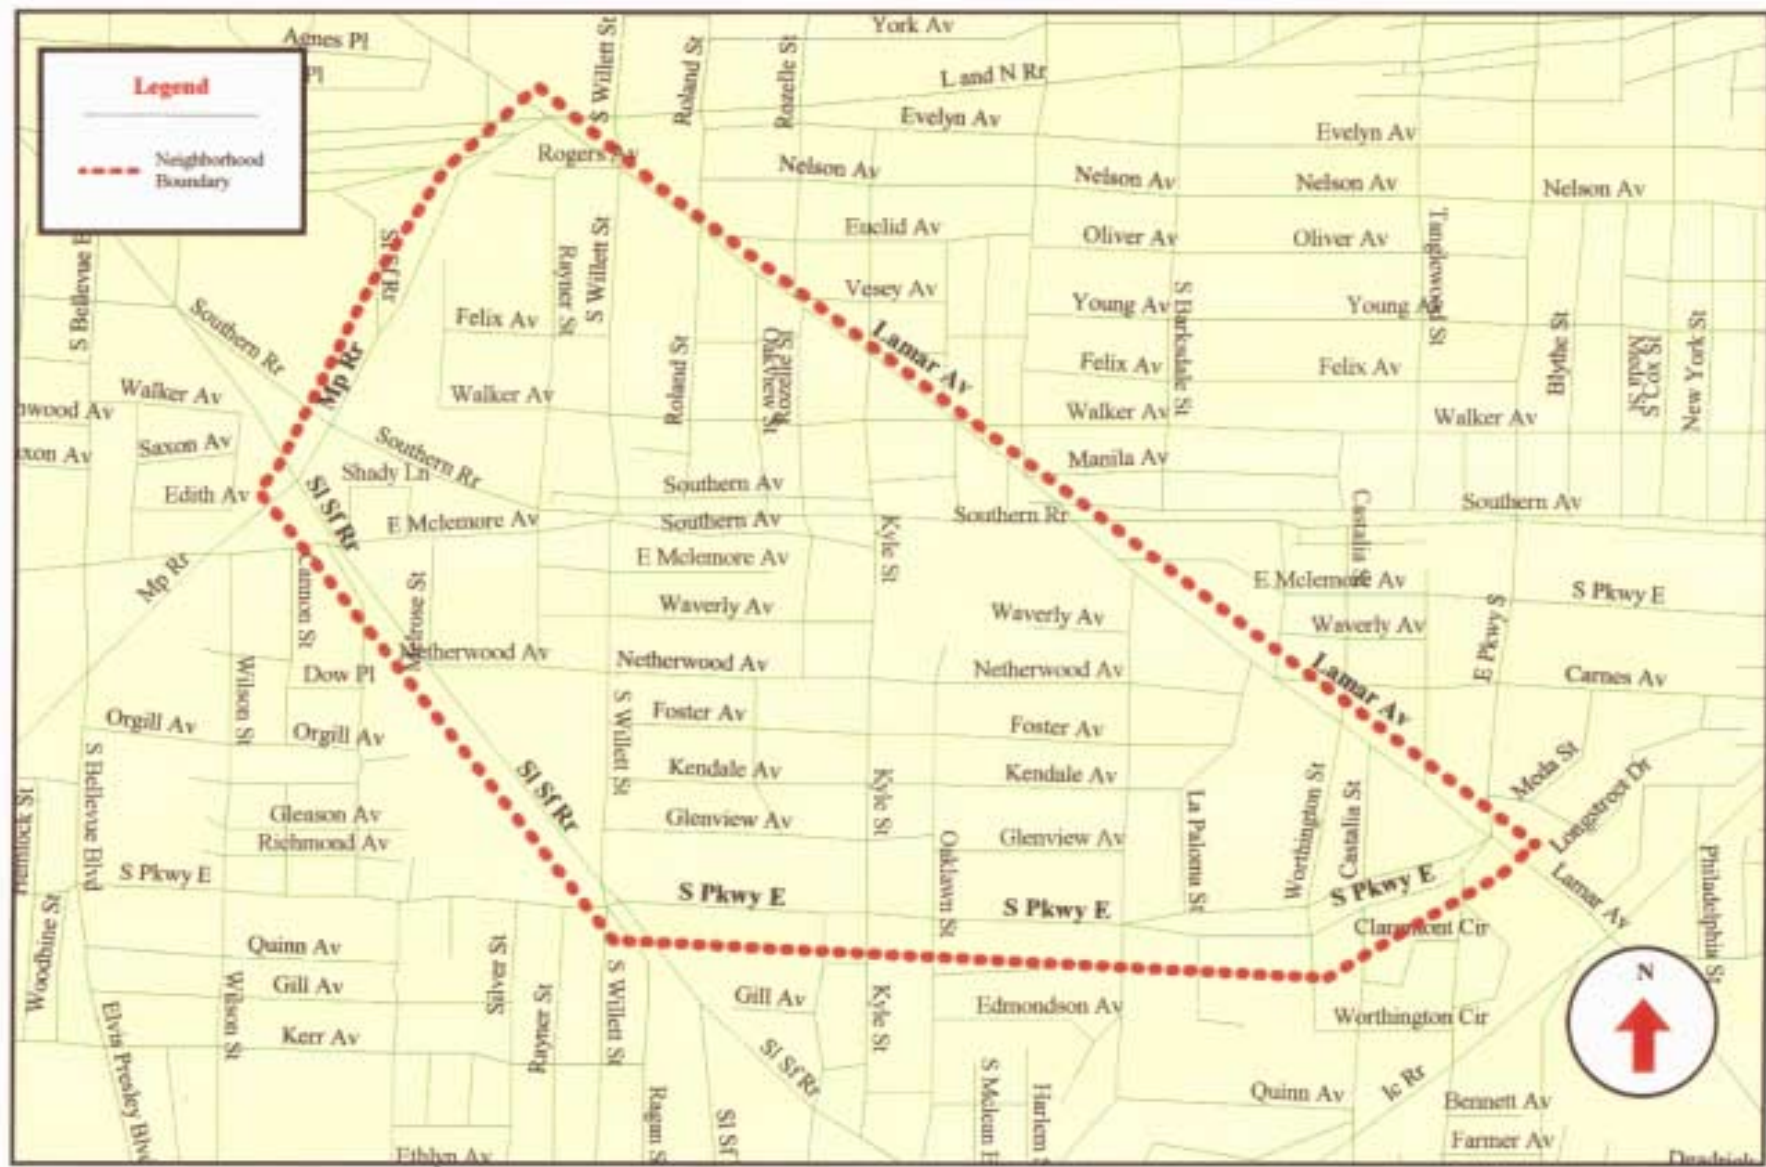

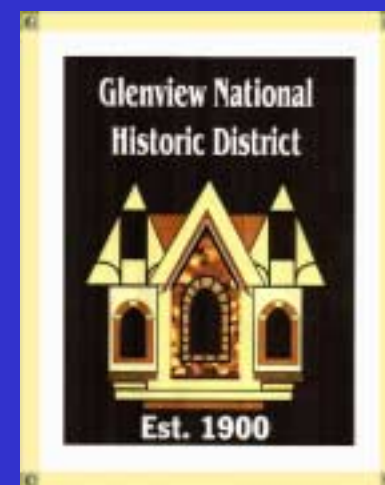

GLENVIEW COMMUNITY DEVELOPMENT PARTNERS, INC.

Our passion has been in helping to promote youth and community development. Y.E.S. was created to get youth involved by teaching them throughout the community about the importance of preserving their cultural heritage.
